SKILLS

React.js | JavaScript | Java | HTML | CSS | Bootstrap | SQL | Git | GitHub | AWS

PROJECTS

Gym App

React.js, CSS, HTML & JavaScript

- Developed a comprehensive and responsive gym guide website that offers a user-friendly interface for fitness enthusiasts.
- Provided personalized workout plans tailored to each user's specific muscle groups, ensuring targeted and effective training.
- Enabled users to customize their training routines and achieve their fitness goals through a highly personalized and interactive experience, fostering greater engagement and motivation.

To-do List

React.js, JavaScript, HTML, & CSS

- Developed a responsive to-do list web application built with React, offering users a comprehensive task management system.
- Implemented features to easily add, edit, and delete tasks, enhancing user productivity and organization.
- Designed an intuitive interface for a seamless user experience.

Password Generator

React.js, JavaScript, HTML, & CSS

- Developed a responsive password generator website that generates secure and customizable passwords based on user preferences
 - Developed with customization including length, character types, and exclusions.
-
